

MISSIONARIES TO TOKYO, JAPAN  
CHURCH PLANTING

# THE KINOSHITA FAMILY

Dear Friends,

Several hundred thousand International tourists seem to be struggling with this humidity and never-ending rain since the rainy season in Tokyo began this month, and it will last till mid-July. We are so ready to have non-rainy day.

## EASTER

One of many first time visitors at our Easter Sunday, a medical student Miss Yu got saved! Yu is continuing to attend CBC to study the Word of God. Children's church had Easter Egg Hunt at a nearby park, and we extended the invitations to other kids with parents who happened to be there playing.

## CLAM DIGGING

Taking advantage of Japanese "Golden Week (a cluster of national holidays between end of April and beginning of May)", we enjoyed church-wide riverside BBQ and beachside clam-digging. The Lord blessed us with good weather and we were surrounded by His amazing nature.

## SALVATION

Sister Yurie made decision to get baptized. Another young lady, college Freshman Miss Mayu accepted Christ as her Savior. Mayu knew nobody in Tokyo when she first enrolled in her college, and she is seeking God's guidance and spiritual support.

## CHILD REARING CLASS

In May, we were able to begin monthly child-rearing class/luncheon (nursery provided). Our desire is to teach young couples in our church the importance of Godly Christian home, and we build strong support system for the parents.

## 6/18 FRIEND'S DAY

When we distributed church invitations door to door (2,000 homes), we had no idea that ALL of extra chairs from the storage were needed on Friend's Day service.

God blessed CBC with many returning and first-time visitors, as well as recently saved guests. There was 68 attendance including new visitors!!

## SPACE RENT

While we praise God for increasing attendance at CBC, a tenant in the same building where we are renting during Sunday services, had complained to the leasing office several occasions about our noise (hymn music & children). Then the building owner had given us a warning with possible termination of our weekly lease if this complaint would be recurring. Do we need to go through extremely difficult, time-consuming search to find an affordable space suitable for growing number in accessible location? Could this tenant's and building owner's heart be soften? Please pray for our situation...!

In Christ,

Nathan, Ruth, Charis, Christopher and Sarah Kinoshita
